Black shielding diffuser for 2,0m version of the lighting rod Highlighter

Black polycarbonate diffuser must be carefully cut by the installer with a circular saw where plug-in products will be installed. Highlighter off, with polycarbonate black diffuser. The polycarbonate black diffuser is a screening element. When Highlighter is off, the black diffuser turns the silicone strip into black. Highlighter on, with polycarbonate black diffuser. The polycarbonate black diffuser is a screening element. When Highlighter is on, the polycarbonate diffuser would turns into light grey and the light emitted will be of around 50%.
For transport reasons, the black diffuser accessory can only be supplied when ordering the lighting rod Highlighter.
